

Twisted Clay Studio during Quarantine

Member Benefits During Quarantine

- ❖ Four weekly exclusive online class times that are just for members in addition to the remaining four online classes that are available to all who are participating in the “Shelter in Clay” program. This totals 8 opportunities per week to interact with Ruthie and ask questions or others on the call and just learn more about working in clay.
- ❖ Five sessions per month of membership during the time of quarantine. I will be giving clay out to members at the price of one 10 lb bag of clay in exchange for one session of class. This might sound expensive, but typically glaze materials, firing costs & instruction are built into the class fees. I will now be including those into the clay fees. At the end of quarantine, any unused sessions will be credited to you as extra studio time. I will be opening up the studio on Fridays and Saturdays in order to allow people to come more often and catch up on their class time.
- ❖ The option to buy clay at the regular prices and just take the extra studio time when we return. You will still be eligible to participate in the members only classes, it just means that buying clay will not go against your classes that you accrue during our hiatus.
- ❖ The knowledge that you are helping the studio keep its doors open during this crazy time.

Ruthie’s Live Schedule

Mondays

11:30am (Facebook Live hand-building focused. Everyone is free to participate and will be encouraged to ask questions by typing them in while I am live)

Tuesdays

12:00pm (Zoom hand building class for current students and members)

Thursdays

11:30am (Zoom instruction for people with a wheel, members only)

7:15pm (Facebook Live hand-building focused. Everyone is free to participate and will be encouraged to ask questions by typing them in while I am live)

Fridays

2:00pm (Members Only Zoom hand building instruction)

Non-Interactive Videos

Instructional videos will be posted on Instagram and Facebook for anyone buying the kits & studio members. These are meant to help anyone whether they are someone who has been a student of the studio or just now discovering Twisted Clay as they learn to work with clay at home.

I plan to release two to three videos a week offering tips and project ideas. These videos will be released on my Instagram account and I will do my best to also post them to my Facebook account. I plan to come up with one new project idea per week in order to spur people's creativity. Sometimes we need a little inspiration.
